

Learning Dutch with LanguageOne Online

LanguageOne has been an authority in the field of high-quality, contemporary Dutch Language and Culture education (NTC) for more than 30 years. A team of 80 professional and experienced teachers and IB* instructors make over 1350 students feel at home in one of our locations in Europe, the Middle and Far East and Australia, or anywhere else in the world with **LanguageOne Online**.

LanguageOne Online provides education to students from 7 to 18 years old. Our trained IB instructors have considerable knowledge of international and Dutch education abroad. They are well aware of the experiences of their students and

attach great value to peer collaboration, both in the classroom and online. Whenever possible, we use various cooperative methods in our online programme, to provide a sense of community, even in distance learning.

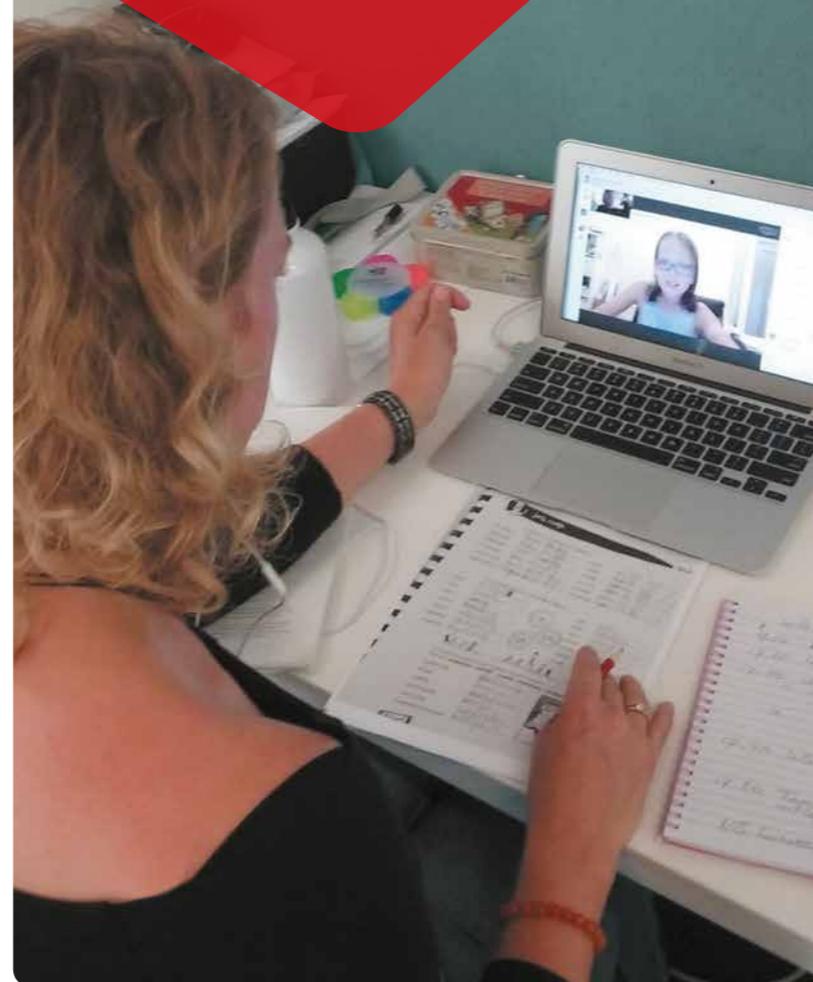

LanguageOne Online is affiliated with the Foundation for Dutch Education Worldwide

STICHTING

BUITENLAND

"My school in the Philippines does not offer Dutch classes, so therefore I study Dutch at LanguageOne Online through weekly Skype lessons. My parents think it's important I can speak Dutch well, should we move back to the Netherlands. I really enjoy learning Dutch online with instructions from my teacher."

Tailored online Dutch course

LanguageOne Online is a perfect solution for students who live far from a LanguageOne school, or for other reasons, are unable to join an after-school class. Working with LanguageOne Online gives students the opportunity to study Dutch at a convenient time, in combination with a weekly Skype lesson.

We strongly believe that a personal approach works best in education. The Skype lessons consist of a varied programme of different types of activities, to provide a wide range of language experiences in an interesting and motivating environment. In addition, we believe it is important to offer optimal support for home-based education. Our lessons are developed in a contemporary digital learning environment in which teacher, student and parents can easily track progress.

Advantages of LanguageOne Online

- Distance learning feels close with weekly Skype education.
- Teachers are well-qualified and work at a LanguageOne school location.
- For students studying in an IB school, we offer Dutch Language A, qualifying students for a bilingual diploma in combination with another Language A subject.
- We provide result-based tailored education and develop the programme on the students' individual needs.
- LanguageOne Online offers quality educational programming at competitive prices.
- The Dutch Inspectorate of Education supervises the quality of our distance learning programmes.

Our dream is that children develop their talents, so that every child feels at home anywhere in the world.
